<Overview of Restricted Stock Allotment Contract>

The Company and every Eligible Employee will conclude the restricted stock allotment contract (hereinafter “Allotment Contract”), and the overview of the Allotment Contract is as follows;

(1) Transfer restricted period

The Eligible Employees are not allowed to transfer, to set security rights, or any other disposal for the Allotted Shares from September 25, 2026 (Due Date of the Payment) until May 31, 2029 (hereinafter “the Transfer Restriction Period”).

(2) Condition for releasing transfer restriction

Provided that the Eligible Employee continuously holds the position of director, executive officer or other officer, or employee of the Company or its subsidiary during the Transfer Restriction Period, the restriction on transfer of all of the Allotted Shares allocated to the Eligible Employee is released at the expiration of the Transfer Restriction Period. However, if the Eligible Employee retires during the Transfer Restriction Period (provided the Eligible Employee is rehired after the retirement, such reemployment period expires) or the Eligible Employee loses her/his position as a director, executive officer or other officer, or employee of the Company or its subsidiary due to death or other reasons deemed justifiable by the Board of Directors of the Company, the Company releases the restrictions on transfer of the shares as of the time immediately following such loss (after April 1, 2027 if such time is prior to April 1, 2027), and the number of transferable shares is calculated by dividing the number of months from the month including the Due Date of the Payment to the month including the date of such retirement or loss of position by 12 (however, if the number exceeds 1, it is deemed to be 1), multiplied by the number of shares allotted to the Eligible Employee out of the Allotted Shares (however, any fraction less than one share resulting from the calculation is rounded down).

(3) The Company’s acquisition of Allotted Shares without contribution

The Company naturally acquires without consideration the Allotted Shares for which the restriction on transfer has not been released at the time when the restriction on transfer is released in accordance with (2) above or at any other time stipulated in the contract.

(4) Management of Shares

The Allotted Shares are managed during the Restricted Transfer Period in a dedicated account for restricted transfer shares opened by the Eligible Employee at Daiwa Securities Co. Ltd.

(5) Treatment for reorganization, etc.

If, during the Transfer Restriction Period, a merger agreement under which the Company becomes a defunct company, a share exchange agreement under which the Company becomes a wholly owned subsidiary, a share transfer plan or any other matters relating to organizational restructuring, etc. is approved at a general meeting of shareholders of the Company (however, if such organizational restructuring, etc. does not require approval at a general meeting of shareholders of the Company, the Board of Directors of the Company), the Company, by a resolution of the Board of Directors, releases the Transfer Restriction. The number of the Allotted Shares subject to release of Transfer Restriction is calculated by dividing the number of months from September 2026 to the month that includes the date of approval of the Reorganization by 12 (however, if the number exceeds 1, it is deemed to be 1), multiplying by the number of the Allotted Shares (if the calculation results in a fraction of less than 1 share, such fraction is rounded down), the Company cancels the restrictions on the transfer of such shares as of the time immediately preceding the business day immediately before the effective date of the reorganization, etc. However, notwithstanding the above, if the business day immediately preceding the effective date of the reorganization is earlier than April 1, 2027, the Company naturally acquires all of the Allotted Shares without consideration as of the time immediately preceding the business day which immediately precedes the effective date of the reorganization.

3. Basis of calculation and specific details for the payment amount

This disposition of treasury shares is to be conducted with the monetary compensation claims paid to the scheduled subscriber under this plan as the assets to be contributed, and the price per share to be paid in is set at 1,861 JPY, which is the closing price of the Company's common shares on the Tokyo Stock Exchange on August 26, 2026 (the business day immediately preceding the date of the Board of Directors resolution) in order to eliminate any arbitrariness. This is the market share price immediately prior to the date of the Board of Directors' resolution, and in the absence of special circumstances indicating that the most recent share price cannot be relied upon, this is a reasonable price that appropriately reflects the Company's corporate value and does not constitute a particularly favorable price for the Eligible Employees.
