Notice Regarding the Acquisition of a Business

Marumae Co., Ltd. (the “Company”) hereby announces that it has agreed to acquire the surface treatment business at the Izumi Plant owned by ULVAC TECHNO, Ltd., as detailed below.

ULVAC TECHNO, Ltd. operates an anodizing business, a surface treatment process for aluminum alloys, at its Izumi Plant, which is located within the Company’s Izumi Facility (headquarters), as part of its surface treatment business. Following its consideration of the matter, the Company resolved to acquire the business, recognizing it as an opportunity to strengthen its integrated production capabilities and create new competitive advantages, including the development of surface treatment technologies required for semiconductor manufacturing equipment in recent years.

2. Overview of the Business Acquisition

Aluminum surface treatment business (limited to the Izumi Plant)

(4) Purchase Price and Payment Method

This information will not be disclosed in accordance with the confidentiality agreement between the parties.
Please note that the purchase price was determined based on an appraisal by an external organization following discussions with the counterparty. Furthermore, as the amount represents less than 15% of the Company’s net assets, it does not meet the disclosure criteria. Regarding the
