Notice on the decision on granting the Large-scale Growth Investment Subsidy

Regarding the Large-scale Growth Investment Subsidy for Labor-saving Measures, etc. to Raise Wages of Medium- and Small-Scale Companies conducted by the Ministry of Economy, Trade and Industry, we would like to inform you that we, ASAHI YUKIZAI CORPORATION (the “Company”), applied for it with the project “development, manufacture and sale of miniature, precision valves for making semiconductor-manufacturing equipment in which our flow rate controlling technology and low dust-generating technology are applied” and it has been adopted. Details are mentioned in the following paragraphs.

Details of the decision

1. Details of the subsidy

Title of the business to be subsidized	Large-scale Growth Investment Subsidy for Labor-saving Measures, etc. to Raise Wages of Medium- and Small-Scale Companies
Applying enterprise	ASAHI YUKIZAI CORPORATION
Expenses required for carrying out the business to be subsidized	11,813,030,062 yen
Maximum amount of the subsidy	3,903,116,307 yen
Business to be covered	Development, manufacture and sale of miniature, precision valves for making semiconductor-manufacturing equipment in which our flow rate controlling technology and low dust-generating technology are applied

Note: It is possible that the amount of subsidy actually granted may change, depending on the result of investment and the method of applying the funds during the period in which the subsidy project is conducted, or the result of the investigation, etc. after completion of the subsidized business.

2. Concerning the targeted rate of raise of wage

We hereby declare that we will increase the per capita total salaries granted to employees engaging in the subsidized business for the period from the fiscal year ending March 2029, the fiscal year including the time of termination of the subsidized business, to the fiscal year ending March 2032, the final year of the business plan, at an annual average rate of 6.2%.

3. Effects on the business performance

This subsidy will not have any effect on our business performance for the current fiscal year, given that the production

facility to be covered will start operation in the fiscal year ending March 2029. If, depending on the future progress of the project, etc., we come to consider that there will be events that may affect our business performance, we will promptly disclose them.

Note: For details of the Large-scale Growth Investment Subsidy for Labor-saving Measures, etc. to Raise Wages of Medium- and Small-Scale Companies, please refer to the Website regarding the Investment Subsidy for Growth of Medium- and Small-Scale Companies (<https://seichotoushi-hojo.jp>).
