Notice Regarding Revision of Dividend Forecast for the Fiscal Year Ended August 2026 (Dividend Increase)

Marumae Co., Ltd. (the "Company") hereby announces that, at a meeting of the Board of Directors held today, it has decided to revise its dividend forecast per share as follows.

1. Revisions to Dividend Forecasts for the Fiscal year Ended August 31, 2026

	Annual dividend (yen)		
	Interim dividend	Year-end dividend	Total
Previous forecasts		26.00 yen	-
Revised forecasts		28.00 yen	-
Results for the current period	38.00 yen		
(Reference) Results for the previous period (FY2025/8)	15.00 yen	25.00 yen	40.00 yen

(Note) The Company implemented a 2-for-1 stock split effective April 1, 2026. The year-end dividend per share figures in both the previously announced forecast and the revised forecast reflect this stock split. Please note that the year-end dividend per share, excluding the effect of this stock split, would be 52 yen in the previously announced forecast and 56 yen in the revised forecast.

2. Reasons for Revisions to Dividend Forecasts

The Company recognizes the return of profits to shareholders as one of its key management priorities. While implementing investments from a long-term perspective, the Company is committed to providing a stable return of profits through dividends by comprehensively considering its operating performance and financial condition, and has set a target dividend payout ratio of 35% or higher for the duration of the current medium-term business plan.

Based on the above policy, and in light of the higher-than-expected net income for the current fiscal year, the Company has decided to revise the year-end dividend forecast from 26 yen per share to 28 yen per share.

The Company plans to submit this matter for approval at the 39th Annual General Meeting of Shareholders, scheduled to be held in late November 2026.
