As net interest income attributable to interest on loans and discounts and interest and dividends on securities is expected to exceed the previous forecast, the consolidated and non-consolidated earnings forecasts for the six months ending September 30, 2026, have been revised upward.

Regarding our earnings forecasts for the fiscal year ending March 2027, given the uncertainty surrounding the economic and financial outlook, we have decided to leave our previously announced consolidated and non-consolidated forecasts unchanged at this time.

Note 1: The earnings forecasts contained in this document are based on information available as of the date of announcement. Actual results may differ due to various factors.
Note 2: On October 1, 2026, the Company implemented a five-for-one stock split of its common shares. Interim net income per share is presented based on the number of shares after the stock split.
