3. Reason

In order to improve profitability and capital efficiency, the Company will maintain its policy of targeting a dividend payout ratio of approximately 40% to 50% as an appropriate level. In addition, the Company will continue to implement progressive dividends as part of its efforts to actively return profits to shareholders.

Based on this policy and taking into account the level of cash on hand, the Company has decided to increase the interim dividend for the fiscal year ending March 2027 by ¥0.50 per share from the most recent dividend forecast to ¥13.00 per share. The Company has also decided to increase its year-end dividend forecast by ¥0.50 per share to ¥13.00 per share. As a result, the annual dividend is expected to be ¥26.00 per share, representing an increase of ¥1.00 per share from the previous forecast.
