# Notice Regarding Revision of Dividend Forecast

MegaChips Corporation (“the Company”) hereby announces the revision to the dividend forecast for the fiscal year ending March 2027, that was published on May 14, 2026.

1. Reasons for revision of dividend forecast

The Company implements an annual dividend, with the fiscal year-end as the record date, in accordance with its basic dividend policy. Taking into consideration the medium-term business outlook and other relevant factors, the Company’s basic policy is to determine the total amount of dividends at a level equivalent to at least 30% of net profit attributable to owners of parent, although adjustments may be made to exclude the effects of extraordinary factors.

With regard to the year-end dividend for the fiscal year ending March 2027, based on the above basic policy and taking into account changes in the number of shares outstanding resulting from the ongoing share repurchase program, among other factors, the Company has revised its annual dividend forecast to ¥300 per share, an increase of ¥40 per share from the previous fiscal year’s actual dividend.

2. Details of Dividend

| | Annual dividend（JPY） | | | | |
|---|---|---|---|---|---|
| Record date | End of 1st Quarter | End of 2nd Quarter | End of 3rd Quarter | Year-end | Total |
| Previous forecast | — | — | — | 260.00 | 260.00 |
| Change | — | — | — | 300.00 | 300.00 |
| Full-year results | — | — | — | | |
| (Reference)Previous fiscal year’s results | — | — | — | 250.00 | 250.00 |

※Cautionary Statement Regarding Forward-Looking Statements
The dividend forecasts contained in this document are based on information available as of the date of this announcement and certain assumptions that the Company considers reasonable. Actual dividends may differ from these forecasts due to various factors that arise in the future.
