(For reference) Previous term Q2 results (FY2026 Q2)	25,193	2,861	2,060	1,413	37.26

2. Reasons for the revision

For the second quarter (interim period), consolidated results are expected to include an income tax adjustment of 135 million yen due to differences in tax rates and accounting treatments with overseas subsidiaries. Regarding the full-year consolidated earnings forecast,

performance is expected to progress in line with the previous forecast. However, if we determine that a revision to the earnings forecast is necessary in response to future developments, we will promptly disclose it.

(Note) The above forecasts have been prepared based on information available under the current business environment. Actual results may differ from these forecasts due to various factors in the future.
