Notice Concerning the Revision of Earnings Forecast of Consolidated Financial Results

DAINICHISEIKA COLOR & CHEMICALS MFG. CO., LTD. (the "Company") hereby announces that, in light of recent performance trends, it has revised the consolidated financial forecasts for the fiscal year ending March 31, 2027, previously announced on August 6, 2026, as described below.

1. Revision of earnings forecast of consolidated financial results for the fiscal year ending March 31, 2027
(From April 1, 2026 to March 31, 2027)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Earnings per share
Previously announced forecast (A)	Million Yen 131,800	Million Yen 11,500	Million Yen 12,400	Million Yen 8,700	Yen 127.46
Revised forecasts (B)	134,900	13,300	14,100	9,200	140.54
Amount of increase/decrease (B-A)	3,100	1,800	1,700	500	-
Rate of increase/decrease (%)	2.4	15.7	13.7	5.7	-
(Reference) Previous period consolidated results (Year ended March, 2026)	124,294	7,610	8,490	8,101	118.32

(Note) The Company conducted a stock split on April 1, 2026, at a ratio of four shares for every one share of common stock. "Earnings per share" for the year ended March 31, 2026 is calculated on the assumption that the said stock split was conducted at the beginning of the previous consolidated fiscal year.

2. Reason for the revision

Net sales are expected to increase, driven by strong sales of high value-added products and price revisions implemented in response to soaring raw material costs, despite the impact of the situation in the Middle East.

Operating profit is expected to increase as sales of high value-added products are projected to remain strong from the cumulative third quarter of the current consolidated fiscal year onwards. Furthermore, the Company is improving profitability through price revisions for unprofitable products and in response to soaring raw material costs, as well as through the thorough implementation of various cost reduction measures.

The forecast for profit attributable to owners of parent incorporates the expected recording of approximately 2.4 billion yen as "business restructuring expenses" (of which 600 million yen has already been recorded in the current interim consolidated period). This is associated with the implementation of company-wide business structural reforms announced in the timely disclosure dated September 15, 2026, titled "(Update on Disclosed Matters) Notice Concerning the Implementation of Business Structural Reform."

(Note) The performance forecasts and other forward-looking statements contained in this document are calculated based on currently available information, and actual results may differ depending on various factors in the future.
