Notice of Revision of Earnings Forecast and Dividend Forecast (Dividend Increase and Commemorative Dividend)

INNOTECH CORPORATION announces that, at its Board of Directors' meeting held today, it has resolved to revise its consolidated earnings forecast (announced on August 10, 2026) and its dividend forecast (announced on May 14, 2026) for the fiscal year ending March 31, 2027 (April 1, 2026 – March 31, 2027), in light of recent business performance and other factors, as detailed below.

1. Revision of Earnings Forecast

(1) Revision of FY2026 full-year (April 1, 2026 – March 31, 2027) earnings forecast

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	EPS
Previous Forecast (A)	Million yen 51,000	Million yen 4,000	Million yen 4,000	Million yen 5,000	Yen Sen 415.46
Revised Forecast (B)	54,000	5,000	4,900	5,700	493.72
Amount of Change (B)－(A)	3,000	1,000	900	700	-
Percentage of Change (%)	5.9%	25.0%	22.5%	14.0%	-
(Reference) Full-year results for fiscal year ended March 31,2026	46,737	3,108	2,912	4,111	320.19

(2) Reasons for the Revision

For the cumulative second-quarter consolidated period, in the Test Solution Business, sales of memory testers and inspection boards for back-end processes remained strong. In the System and Service Business, despite a challenging environment in automotive and vending-machine-related sectors, we successfully captured robust demand in fields such as semiconductors, social infrastructure, and defense, leading to a significant increase in sales of our proprietary CPU boards and box computers. Additionally, the Semiconductor Design-related Business

performed generally solid.

As these trends are expected to continue into the third quarter and beyond, full-year net sales, operating profit, ordinary profit, and profit attributable to owners of parent are all expected to exceed the previous forecast.

Accordingly, we have decided to revise the earnings forecast.

2. Revision of Year-end Dividend

(1) Details of the revision to the year-end dividend forecast

	Dividend per share (yen)		
	End of second quarter	Year-end	For the year
Previous forecast (announced on May 14, 2026)	Yen -	Yen 40.00	Yen 130.00
Revised forecast	-	80.00 (Ordinary Dividend: 50.00) (Commemorative Dividend: 30.00)	170.00
Paid during the current fiscal year	90.00 (Ordinary Dividend: 40.00) (Special Dividend: 50.00)	-	-
Annual dividend for previous fiscal year ended March 31,2026	35.00	90.00	125.00

(2) Reasons for the Revision

Our basic policy for dividend payouts prioritizes performance-linked and stable shareholder returns. In light of our favorable business performance, we have resolved to increase the year-end dividend forecast for the fiscal year ending March 31, 2027 by 10.00 yen per share from the previous forecast of 40.00 yen, bringing the ordinary dividend to 50.00 yen per share.

Furthermore, to celebrate the 40th anniversary of our establishment, we will distribute a commemorative dividend of 30.00 yen per share. As a result, the annual dividend per share for the current fiscal year will be 170.00 yen, including the already-paid interim dividend of 90.00 yen. This represents an increase of 45.00 yen compared to the previous fiscal year.
