2. **Impact on Business Results**

NTT Group has adopted International Financial Reporting Standards ("IFRS"), and the NEC Shares are classified as financial assets measured at fair value through other comprehensive income. Accordingly, no gain on sale of investment securities will arise from the Share Sale in the consolidated financial results, and there will be no impact on profit.

In the non-consolidated financial results, NTT expects to record a gain on sale of investment securities of approximately 189.0 billion yen arising from the Share Sale as an extraordinary gain for the third quarter of the fiscal year ending March 31, 2027. The above amount is an estimate based on the number of shares scheduled to be tendered in the tender offer by NEC for its own shares as of November 10, 2026, and may change depending on the actual number of shares sold and other conditions.
