Notice Concerning Differences between Financial Results Forecast and Actual Results for Six Months Ended September 30, 2026

Toho Acetylene Co., Ltd. (the "Company") hereby announces that there are differences between the non-consolidated financial results forecast and actual results for the six months ended September 30, 2026, announced on May 14, 2026, as follows.

1. Differences between the non-consolidated financial results forecast and actual results for the six months ended September 30, 2026 (April 1, 2026 – September 30, 2026)

	Net sales	Ordinary profit	Net income	Basic earnings per share
Previously announced forecast (A)	Million yen 7,500	Million yen 500	Million yen 350	Yen 10.05
Actual results (B)	8,408	534	389	11.18
Change (B-A)	908	34	39	
Change (%)	12.1	7.0	11.4	
(Reference) Actual results for the previous six months (Six months ended September 30, 2025)	7,421	519	364	10.46

2. Reason for differences from the financial results forecast

Net sales for the six months ended September 30, 2026 exceeded the initial forecast due to factors such as an increase in sales volume for general high-pressure gases and higher selling prices for liquefied petroleum gas resulting from rising import prices.

There are no revisions to the financial results forecast for the fiscal year ending March 31, 2027 from the previous announcement. Should any revisions become necessary in the future, the Company will disclose them promptly.
